

SYSTEM FOR SUPPLY OF COMPRESSED AIR AND VEHICLE INCLUDING A SYSTEM FOR SUPPLY OF COMPRESSED AIR

Abstract

A compressed air supply system including a compressor (12), a compressed air line (4) that connects an outlet (3) from the said compressor to an inlet (5) to a first active component (6), and an adjustable fan (13) which is controlled by a control unit and is arranged to generate an air flow intended to cool the said compressed air line (4), and a vehicle comprising such a system.
